

# Animal Care

A wide variety of tire-derived products are available for use in animal care applications. Mats and tiles used in barns and stables can provide safe, easy-to-maintain surfaces ideal for horse and livestock care. Arena footing incorporating crumb rubber can provide enhanced safety and durability compared to traditional products.

## **Animal Care Benefits May Include:**

- Enhanced animal and human safety
- Reduced injuries due to better cushioning, impact absorption and slip-resistance
- Lower maintenance costs due to reduced need to replenish degrading materials and easy-to-clean surfaces
- Enhanced equestrian performance due to better traction and slip-resistance
- Easy installation
- Enhanced durability providing long lasting, consistent performance
- Improved insulating protection from wet and cold
- Cost effective

## **Animal Care Applications May Include:**

- Horse Arena Footings
- Exercise and Dressage Areas
- Barn and Stable Flooring
- Animal Bedding
- Animal Wash Areas
- Dog Parks
